

ARTHUR PEREIRA VIEGAS

Full-Stack & AI Engineer · Porto Alegre, RS — Brasil

arthurpviegas@gmail.com | github.com/ArthurViegas01 | linkedin.com/in/arthurpviegas

SUMMARY

Full-Stack & AI Engineer with 4 years of experience building and scaling data-intensive web applications and production AI systems. Specialized in end-to-end RAG pipelines, multi-agent orchestration with LangGraph, MCP servers, and AWS cloud architecture. At Dataglass, led the full Dockerization and CI/CD automation of a production platform serving healthcare clients via Tableau, eliminating 100% of manual deployment steps. Currently shipping a multi-tenant WhatsApp AI SaaS built with Next.js, FastAPI, and LangGraph.

PROFESSIONAL EXPERIENCE

Full-Stack Developer, Dataglass

Jan 2024 – Present

- **Technical Leadership:** Led the development of the company's main data visualization application, built with Django and React, serving healthcare clients via Tableau Cloud APIs. Mentor a junior intern through structured code reviews, technical guidance, and sprint task management, reducing PR review cycles by ~40%.
- **DevOps & Cloud:** Architected and implemented the full Dockerization of the Django application, containerizing all services and managing images with AWS ECR — reducing environment setup time from 2+ hours to less than 5 minutes.
- **CI/CD Automation:** Built a fully automated CI/CD pipeline using AWS CodePipeline and CodeBuild with deployment to Elastic Beanstalk, eliminating 100% of manual deployment steps and all human-error-related incidents.
- **Cloud Migration:** Led the migration of application data and assets to AWS S3, decoupling file storage from the server and improving scalability and availability.

Full-stack Development Intern, Dataglass

May 2023 – Dec 2023

- Progressed rapidly from front-end (React) tasks to full-stack responsibilities on the core Django application, earning an early promotion within 7 months.
- Developed and maintained key data analysis and visualization features used daily by healthcare clients. Consistently delivered Kanban sprint tasks ahead of schedule.

Community Analysis Intern, DELL Technologies / PUCRS

Apr 2021 – May 2023

- Collaborated with a globally distributed team (USA, India) to manage and moderate the official Dell Brazil community forum. Created technical guides (RAM upgrades, compatibility checks) to proactively reduce repetitive support queries.
 - Analyzed forum engagement data in Excel to identify emerging technical issues, delivering structured weekly reports to the international management team.
-

EDUCATION

B.S. in Software Engineering

Jan 2021 - Jun 2025

Pontifícia Universidade Católica do Rio Grande do Sul (PUC-RS) — Porto Alegre, RS

TECHNICAL SKILLS

- **AI / LLM Engineering:** RAG (Retrieval-Augmented Generation), LangChain, LangGraph, MCP (Model Context Protocol), Vertex AI, Gemini, Semantic Search, Groq / Llama 3, Claude, Ollama
- **Languages:** Python, JavaScript, TypeScript, SQL, HTML5, CSS3 / SASS
- **Back-End:** FastAPI, Django, Django REST Framework, Celery, Node.js, REST APIs, Microservices
- **Front-End:** React, Next.js, Vue 3, TypeScript, Tailwind CSS, Responsive Design, SASS
- **Cloud & DevOps:** AWS (CodePipeline, CodeBuild, Elastic Beanstalk, EC2, S3, ECR, RDS, Secrets Manager), Google Cloud Platform, Docker, Terraform, CI/CD, GitHub Actions, Railway
- **Databases:** PostgreSQL, pgvector, Redis, ElastiCache, Supabase
- **Data & Analytics:** Tableau (API Integration), Data Visualization, Data Migration
- **Practices:** Git, Git Flow, Agile / Scrum, Kanban, Code Review, TDD
- **Spoken Languages:** Portuguese (Native), English (Advanced / Professional)
